Other interface numbers are Hardwired or Custom. Contact your APG Representative for more information.

Till:

8 coin, 4-6 adjustable bill locations. The locking cover provided with every unit fully encloses media storage.

INTEGRATION SYSTEMS

Features:

- Integrates the Series 4000 18821 Model, 2021 Model, and the Series 100 16195 Model
- Durable, color matched ABS construction organizes peripherals and cleans up cable routing
- Printer trays available with either left or right hand mounting
- Accommodates nearly all major POS keyboard, printer & monitor brands
- PC garage available for a complete solution

CABLES

The APG MultiPRO interface is designed to take a standard cash drawer and connect, via interchangeable cables, to a variety of POS receipt printers and terminals. The detachable cable can be changed on-site allowing cash drawers fitted with the MultiPRO interface to adapt to a different terminal or printer. Other available interfaces include:

- DirectPRO hardwired interfaces
- SerialPRO serial interfaces
- USBPro USB interfaces
- Custom interfaces are available
