

ON-COUNTER PRESENTATION READERS

Heron™	Diamond™	Magellan®	
		Magellan 1X00	Single Plane
An entry level presentation reader, the Heron is packed with features to delight any user and is perfect for large or small retail POS or office applications.	The Diamond omnidirectional presentation laser scanner is an excellent value for those seeking good performance in an economical design.	The Magellan 1000i / 1400i presentation scanners provide throughput performance similar to larger fixed position single plane scanners like the Magellan 2200VS but in a smaller footprint and are designed for occasional handheld use.	The Magellan 2200VS scanner is specifically designed for retailers that require high performance in a compact, vertical form factor.
		 Also available in white

IN-COUNTER SCANNERS AND SCANNER/SCALES

	Magellan®			
	Single Plane	Bi-Optic		
The Magellan 2300HS scanner is specifically designed for retailers that require high performance in a compact, horizontal form factor.				
The complete line of Magellan bi-optic scanners and scanner/scales are built from a common platform with common features to increase productivity and enhance POS system efficiency. Value Added Features provide reporting tools that help decrease front-end costs by managing information on scanner software and diagnostics.

POCKET GUIDE

GENERAL PURPOSE HANDHELD READERS

Datalogic Scanning's wide range of general purpose handheld readers offer users a variety of choices for their data collection activities. Product sets offer conventional laser or linear imaging technology and support for linear or 2D decoding, plus a variety of features to meet specific scanning needs. For use in simple to complex applications across industries, you will find these handhelds easy to use, fast, accurate and extremely versatile, while maintaining ergonomic comfort for extended periods of use.

INDUSTRIAL HANDHELD READERS

Datalogic's PowerScan® industrial handheld readers are data collection's definitive example of ruggedness and durability. Often imitated, but never rivaled, the PowerScan products rise above the fray with their outstanding performance and unyielding reliability. Designed for industrial applications or abusive environments, PowerScan readers offer corded and cordless models that include a full array of accessories and options to enhance portability and provide additional usability.

* READING RANGE (Handheld Readers)

ON-COUNTER PRESENTATION READERS

From low-to-medium volume POS applications such as those in convenience, specialty and drug stores, to healthcare and document handling in office environments, Datalogic Scanning's wide range of presentation readers offer a variety of form factors to solve data collection needs.

IN-COUNTER SCANNERS AND SCANNER/SCALES

The Magellan® brand of high performance scanners and scanner/scales are world renown for their unstoppable performance and extreme reliability. Scan after scan, these powerhouses are truly the hardest working scanners in retail. The Magellan line with its years of continuous development, combined with Datalogic's deep experience in high volume retail checkout environments, has redefined industry expectations. Magellan scanners and scanner/scales are the definitive benchmark for quality and dependability at the point-of-sale (POS).

All Datalogic Scanning products are enabled to read GS1 DataBar™ linear codes.
